

SAVE THE PONT VALLEY!

UK Coal are planning an opencast coal mine between Bradley, Brooms and High Stables

This could result in:

- Increased noise, dust and heavy traffic
- The destruction of this beautiful countryside
- Irreversible damage to wildlife - red kites, deer, squirrels etc.
- Negative impact on property prices and quality of life
- Future environmental damage

How can **you** help?

1. Sign the petition at www.dipton.com
2. Get involved - visit the website at www.pontvalley.net for more details
